**FOR FOOD PROCESSING AREAS and EQUIPMENT:** Dilute concentrate 12 to 16 ounces per gallon of warm water. Mop, spray or sponge onto surface and allow to stand a few moments. Surfaces that come directly in contact with food require a potable water rinse; otherwise rinsing is not usually necessary.

**FOR HEAVY DUTY DEGREASING and INDUSTRIAL CLEANING:** Dilute concentrate 32 ounces per gallon of warm water. Mop, spray or sponge onto surface and allow to stand at least 5 minutes. Scrub or brush thoroughly and rinse with clean water.
