DESCRIPTION

A high performance degreaser formulated to remove grease, oil, carbon, or any other industrial soils from concrete, machinery, engines, floors, walls, etc. Contains HydroSolv 2000 technology, a fast acting powerful solubilizing agent that dissolves and suspends any soil, allowing it to be wiped or rinsed away completely. Cleans faster, easier, and more economically than traditional degreasers. This butyl free formula provides a safer, effective alternative.

DIRECTIONS

Dilute product according to guidelines below:

LIGHT SOIL: Use 4 oz. per each gallon of water

MEDIUM SOIL, ENGINES, MACHINERY, & CONCRETE: Use 16 oz. per each gallon of water

HEAVY SOIL: Use 32 oz. per each gallon of water

Apply by mop, sprayer, sponge or automatic scrubber to surface to be cleaned and allow to stand for several minutes. For heavier soil, agitate briskly with a brush or aggressive pad. For normal soil, allow the product to do the work. Wipe clean with a moist rag, sponge or pick up with a wet-vac, auto-scrubber, or mop. Where applicable; rinse thoroughly with water. Avoid contact with windows or other glass surfaces.

FOR USE IN PRESSURE WASHERS: Adjust spray nozzle to deliver 1 part concentrate to 30-60 parts water depending on soil conditions. Rinse thoroughly with clear water.

These directions are flexible rather than specific. In many cases a more dilute solution can be used, while for extreme conditions a less dilute solution may be used.

This product meets the maximum content requirements for Volatile Organic Compounds (VOCs) as established by State and Federal regulations.
