

## 4-Drum In-Line SpillPal™ Portable Containment Unit #SPAL4-IN - 2' x 8' x 3", 1 each/package

A SpillPal unit with flexible sidewalls provides quick, portable spill containment — a great alternative to hard poly pallets that must be moved with a forklift.

- Inline design is ideal for containment along walls or in narrow areas without ample floor space for square decks
- Provides versatile, portable spill control during temporary storage of drums, machine parts, tanks and generators
- Can also be used as a washdown pad or pumping station
- Light, foam sidewalls spring back to their original shape after any pressure is applied; safe for drive-overs from handtrucks or forklifts
- Affordable, portable and easy to set up
- Reusable containment can be folded and stored to save floor space
- No ramps or other accessories are required for usage
- To help keep items out of contained liquids, optional grates can be added (grates not included, use one grate per every two drums; do not drive over SpillPal when grates are in place)
- Resists most chemicals; check your specific chemical compatibility under "Technical Resources" at [spilltech.com](http://spilltech.com)
- Available in multiple configurations

## SPAL4-IN Specifications

<b>Dimensions:</b>	8' W x 2' L x 3" H
<b>Shipping</b>	8" W x 51" L x 31" H
<b>Dimensions:</b>
