

## 6-Drum SpillPal™ Portable Containment Unit #SPAL6 - 4' x 6' x 3", 1 each/package

A SpillPal unit with flexible sidewalls provides quick, portable spill containment — a great alternative to hard poly pallets that must be moved with a forklift.

- Provides versatile, portable spill control during temporary storage of drums, machine parts, tanks and generators
- Can also be used as a washdown pad or pumping station
- Light, foam sidewalls spring back to their original shape after any pressure is applied; safe for drive-overs from handtrucks or forklifts
- Affordable, portable and easy to set up
- Reusable containment can be folded and stored to save floor space
- No ramps or other accessories are required for usage
- To help keep items out of contained liquids, optional grates can be added (grates not included, use one grate per every two drums; do not drive over SpillPal when grates are in place)
- Resists most chemicals; check your specific chemical compatibility under "Technical Resources" at spilltech.com
- Available in multiple configurations

### SPAL6 Specifications

<b>Dimensions:</b>	6' W x 4' L x 3" H
<b>Shipping Dimensions:</b>	8" W x 51" L x 31" H
