

## HazMat Poly Blend Pillows #YPIL818 - 18" x 8", 20 pillows/package

When hazardous liquids spill, use HazMat Sorbents for quick, efficient response. These poly blend-filled Pillows soak up acids, bases and unknown fluids fast.

- **The Power of HazMat:** 100% poly blend Pillows quickly absorb nearly any type of caustic, hazardous or unknown liquid — including acids, bases, solvents and chemicals. Color-coded Safety Yellow for fast identification; know exactly what you're reaching for in an emergency spill situation.
- **Absorb Large Quantities ... Quickly:** Ideal for spill response. Easy to toss into action. Pillow's large surface area speeds the absorption process and shortens the overall response time.
- **Pillows Absorb Fluids in Tight Spaces:** Pillows are easy to place in hard-to-reach areas — use under machines and leaky hydraulic hoses or wedge in corners cramped for space.
- **One Product for a Variety of Uses:** Pulls liquids from the floor like a sock. Catches leaks like a pan. Absorbs spills like a pad. It's one versatile product that works for many different jobs.  
Note: Not compatible with sulfuric acid
